### The Real Message In My Life As Mother Mary

Mother Mary

I would like to speak today about my life as Mother Mary, about the message that was important in that life on Earth. The message from that life was not that I was the mother of the Hebrew child Yeshua who came to be known to the world as Jesus Christ, but *why* I was chosen as his mother. As it sometimes happens, the real message got lost.

The important message is for you to learn that each of you comes to this world with blank pages in the book of your life, ready to write in it with straight or twisted lines, depending on the life you choose to live. It is the purity of spirit, the honesty of the heart that really matter in a person. And that purity of spirit, that honesty of the heart is the same for every newborn human being.

As you live your life, purity of spirit and honesty of the heart come from having inner peace, from living in God, following the Holy Creator, living in harmony, in peace. These qualities come from living with honor, fulfilling the principles of loving God above all and loving your fellow men as you would love yourself, as was transmitted by my son in that lifetime.

It is the purity of the heart and the spirit, the clarity and the light that are important for every soul who incarnates, and to keep these qualities intact throughout your life is very difficult. In that sense, when I was selected before going to Earth for the mission of giving birth to a child whose mission was so vast, those who selected me as his mother paid attention to what was most significant, the qualities of my soul.

It was the qualities that my soul had acquired throughout innumerable incarnations, the light, love and compassion, that made me immaculate, clean, pure and ready for the mission I was entrusted to carry out. And that is the desirable way for each and every human being living on your planet to behave, with purity, a clean heart, love and compassion. It is desirable that you live in peace with yourselves

and with each other, that you be respectful of yourself, respectful of diversity, of different beliefs and respectful of each other's land.

That is the life I tried my very best to live. Unfortunately, this message never got through.

Humanity seems determined not to look to the light. Although looking to the light is the easiest thing for souls to do, you nevertheless insist on fighting, hatred and vengeance. You insist on imposing your opinions mercilessly, destroying one another, not noticing that from this behavior and this destruction will come the total annihilation of humanity.

Can't you see how easy it is to live for oneself and with oneself within the rules for peace and order, love and harmony? It is true that right now there are areas of the planet where it is almost impossible for people to make these changes all at once. That is why it is so important that, little by little, each person begin to change, become an example for those around them. It is the light which must be contagious, not the darkness.

Unfortunately, the opposite is happening nowadays. Humanity is contaminated with negative energy. This only brings despair and desperation, and both are dense energies with a very low vibration that builds up around people, around nations ... and around the planet. The moment is coming when none of Earth's inhabitants will be able to breathe.

I wish that by all means possible there would begin to be more light, more light in many places around your planet all at the same time. I wish there would be a few spots, a few persons, a few groups who come together and apply all these principles, not only in their meditations but in their daily lives. Then, little by little, with their example and their attitude, the change begins.

I would ask you to be part of that change.

The survival of a spiritual humanity through demonstration of a life well-lived is the message of my life as Mother Mary. It causes me great pain of heart to see what has come of the love that was the guiding principle of my life. It gives me much joy to know that there are those who seek the light and strive to live in the love of the Creator and share that love with all around them through their hearts and their

actions.

I am here for those who see me as an intercessor, but I am truly simply one who is further down the spiritual path, one who loves you deeply and will do everything in my power to give you the strength and determination to live your life as I attempted to live mine as Mother Mary.

It is the life you choose to live, the love and light you sow and sustain that will be reflected not only in your own most sacred soul, but in the lives and attitudes of all persons you encounter ... and those you don't encounter as well, because living in love and light is contagious.

I would have you understand the real message in that well-known life and realize that no matter where you are now, you can seek the light, seek purity of heart, and seek to love and respect one another.

That is my only wish.
